# BOSTON LANDMARK RENEWED

Built as a commercial row house in 1816, the Sears' Crescent Building is a landmark for the City of Boston. From the Brownstone cornices to the cast iron columns and red bricked facade; Sears' Crescent itself is a cherished cultural heritage accented by tasteful renewals. Its architectural features have been lovingly preserved and restored in all their grandeur, ensuring that this property will remain a sought after destination for the next generation of working Bostonians.
